business!**

Happy Shopping!

Online Order Process – Use this catalog to preview plants and prices. The online order form will go active at **9 am on April 30th** on the FFA Plant Sale Facebook Page, Staff Email, and High School Website. Orders will be filled in the order received. Once your order is placed, you will receive an order confirmation from me that we have your full order. This may take a little time if all orders come in at once. I will also email you your total and link to pay online. We will also set your appointment for pick up between **May 5-7**. All orders must be paid for online using a debit or credit card before your scheduled pick up date. **No cash or checks** will be accepted due to COVID 19 restrictions and safety.

Payment Note: Due to payment restrictions we have to pay online. This imposes a 3.2% and \$.20 finance charge to the cardholder. With this increased expense, we have lowered our prices to absorb that expense for you.

Large Patio Pots - \$23 (New this year)

These decorative square pulp pots measure 12" by 13" at the top and 11" tall. They are potted with a variety of sun loving plants, but will also do fine in partial sun. The color combinations are listed below. We only made a few of each of these this year to see how they would sell. So, quantities are limited. If you would like to order one, we will have them laid out at pick up so you can pick the one you like. **Plants:** *dracaena*, *bacopa*, *ivy geraniums*, *petunias*, *verbena calibrachoa*, *potato vine*, *trixiliners*

Red & White

Pink Ivy Geranium

Pink and Green

Purple & White

Pink & Yellow

Raspberry

Small Patio Pots - \$12 (New this year)

These pots are smaller, round, decorative plastic 11" pots measuring 9" tall. They include a *dracaena* and two spiller plants. Most of these pots can go in sun to partial sunny areas and we have two shade plant options. Like the large patio pots, we only made a handful of these to see how they would sell. You can order one and we will lay them out for you to pick the one you like.

Plants: *dracaena*, *bacopa*, *ivy geraniums*, *petunias*, *verbena calibrachoa*, *lobelia*, *fuchsias*, *begonias*, *creeping jenny*

Sun Loving

Shade

Pictures were taken two weeks before the sale. A few plants like fuchsias and lobelia are budded up and will be blooming by sale time

Hanging Baskets (13 inch round pulp baskets) - \$23

All of these baskets are sun loving basket combinations. Many are combinations that we have planted in the past and some are new varieties based on customer feedback. You will order these by their name in the online order form. **Plants:** Mixmaster varieties, bacopa, wave petunias, petchoa, verbenas, calibrachoa, potato vine.

As orders come in, I will be checking inventory. To save time, have your second choice basket idea ready if I have to ask for a substitute in color.
These sell fast!

Geraniums (4 inch square pots) - \$2.90

We have the happiest geraniums in the county. They are healthy, huge and ready for a larger container. We have a variety of zonal geraniums which are upright growing and are great for flower beds or pots. They love sun, so please do not put them in the shade. Keep plucking their dead blooms to keep them blooming until frost. We have one variety of Ivy Geranium which is a trailing geranium. These are great to use as fillers and spillers in a pot or basket. You will order these by name in the online order form. **Note:** the *Galaxy purple* is more of a magenta.

Galaxy Purple

Ivy Geranium Purple

All Basket Stuffers (3.5 inch square pots unless other-wise stated) - \$2.40

Potato Vine (Ipomoea)

This is a low maintenance spiller plant that adds a pop of color with their wide foliage. You can select from green and purple varieties. They work well in containers and baskets. They prefer sun but will grow in partial sun also.

Marguerite

Blackie

Creeping Jenny (Lysimachia)

This is a great trailing addition to any basket or container. The vibrant foliage brightens up and adds texture to any design. They tolerate full sun or shade and are very versatile and low maintenance. They can even be planted as ground cover around water edges or slopes.

Lobelia- Magadi Blue

Add a stunning pop of blue to any sun loving basket or container mix with this plant. This is a trailing variety and vigorous grower. They have been pinched back and just started blooming when these pictures were taken. They will be in full bloom by sale time. These plants grow best in full sun to partial shade.

Verbena

These are great for flower beds, containers or baskets. They perform best in full sun and have a trailing habit. The more you pinch the dead blooms, the more they will bloom. Pick from the following three colors in the online order form.

Salmon

Dark Red

BeBop

Bacopa

This is a vigorous growing trailing plant that can be used in any basket or container as a spiller. It's delicate white blooms add a pop of white to any design. Prefers full sun but will tolerate a minimum of 6 hours of sun per day.

Bacopa

Calibrachoa

This is a perfect addition to add color to any basket or container. Calibrachoa is also known to many as **Million Bells** and are considered a mini petunia. They are self-cleaning, which makes less work for you. These are sun loving trailing plants, but prefer at least 6 hours of sun per day. They also come in a variety of fun colors as listed below.

Double Deep Yellow

Neon Orange

Violet Star

Vampire Red

Double Blue

Calibrachoa Mixmasters

This is a unique blend of two to three calibrachoa in one plug. You get the same benefits of a low maintenance calibrachoa, but 2-3 colors blended together. These are excellent for baskets and containers. Calibrachoa love the sun and require 6 hours of sun per day to perform their best. See the two varieties pictured right.

Petchoa Supercal

These are a fun new variety that is a cross between a petunia and calibrachoa. Their motto is "super color, super easy" and the reason we thought we would try them this year. They will bloom rain or shine, hot or cold. They are vigorous growers and are available in fun colors. They prefer 6 hours of sunlight a day. We had pink, but they went into the hanging baskets. We do have these two fun colors pictured below.

Red White Pink Purple Yellow

Remember to fertilize regularly all summer, whether it is a time release or soluble fertilizer. This will help maintain vibrant color all summer long.

Terra Cotta

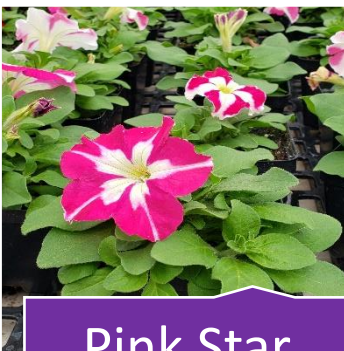

Light Yellow

Petunias

Petunias are a traditional vigorous growing plant that adds color to any flower bed, basket or container. You can pinch these plants back and they get thicker and have more blooms. The more you pluck dead blooms the more they will bloom in return. They also prefer at least 6 hours of sun. See the four varieties below.

Pink Star

Pink

Rose Stardust

Purple

Petunia Headliner Night Sky (4 inch square pot)

This petunia was featured in our Pioneer Baskets with bacopa. This petunia is a vigorous grower and has the very unique white speckles on a vibrant Pioneer purple petal. These plants will grow well in flower beds, baskets or containers. They require a minimum of 6 hours of sunlight.

Angelonia

This is another new plant we are trying out this year and has had rave reviews. This plant will give you a delicate texture, height and a pop of color to your flower beds or containers. It is a slender upright growing line flower that you will be sure to enjoy. It is tolerant to extreme garden conditions and prefers 6 hours of sun per day. Choose between these two color options.

Blue
Bicolor

Coral

Impatiens

Impatiens are wonderful choice to add sweet color to your **shade** or partial shade flower bed, basket or container. These provide a mini rose like flower and there is no need to remove dead blooms, making them low maintenance. We only have one color but it is a fun color (Fiesta Sparkler Cherry).

Begonias

This is another easy and gorgeous continuous bloom for your **shade** flower bed, basket or container. Simply remove dead leaves and blooms when they appear, which is not often. This variety is a Nonstop Deep Salmon and will add a pop to your shade style design. These plants do prefer shade to partial shade like the impatiens.

Fuchsias

These are a great way to add continuous color to a shade container or basket. They will also tolerate partial sun. These are a trailing variety and the blooms are light pink in color. They were not quite flowering when pictures were taken, but have several buds that are ready to brighten your shade container.

Perennial Dracaena (3.5 inch square pots) - \$2.00

This perennial grass type plant provides height and a smooth texture to your flower bed or container. This plant works great as the "fountain" portion of your container. These can grow successfully in full sun or partial shade.

Veggies (3.5 inch square pots) - \$1.10

We have a small variety of veggie starts for your garden. Your choices are:

- 1. Pickling Cucumber**
- 2. Straight Eight Cucumber**
- 3. Zucchini Squash**
- 4. Yellow Straightneck Squash**

Tomatoes (4 inch square pots) - \$2.50

We have a variety of tomato starts for your garden. The stems are staked and tied for support and are ready for larger containers or your garden. Choose from a variety of slicing tomatoes, roma and cherry tomatoes.
